MARKING GUIDELINE
(EXEMPLAR)**

MARKS: 150

This marking guideline consists of 25 pages.

NOTES TO MARKERS

1. A comprehensive memorandum has been provided but this is by no means exhaustive. Due consideration should be given to an answer that is correct but:

- Uses a different expression from that which appears in the memorandum
- Comes from another source
- Original
- A different approach is used

NOTE: There is only ONE correct answer in SECTION A.

2. Candidates' responses must be in full sentences for SECTION B and C. However, this would depend on the nature of the question.
3. Take note of other relevant answers provided by candidates and allocate marks accordingly. (In cases where the answer is unclear or indicates some understanding, part-marks should be awarded, for example, one mark instead of the maximum of two marks.)
4. The word 'sub-max' is used to facilitate the allocation of marks within a question or sub-question.
5. The purpose of circling marks (guided by 'max.' in the breakdown of marks) on the right-hand side is to ensure consistency and accuracy in the marking of scripts.
6. Subtotals to questions must be written in the right-hand margin. Circle the subtotals as indicated by the allocation of marks. This must be guided by 'max' in the marking guideline. Only the total for each question should appear in the left-hand margin next to the appropriate question number.
7. In an indirect question, the theory as well as the response must be relevant and related to the question.
8. Incorrect numbering of questions or sub-questions in SECTIONS A and B will be severely penalised. Therefore, correct numbering is strongly recommended in all sections.
9. No additional credit must be given for repetition of facts. Indicate with an R.
10. Note that no marks will be awarded for indicating Yes/No in evaluation type questions requiring substantiation or motivation. (Applicable to SECTIONS B and C.)

11. The allocation of marks must be informed by the nature of the question, cognitive verb used, mark allocation in the marking guidelines and the context of each question.

Cognitive verbs, such as:

- 11.1 Advise, name, state, mention, outline, motivate, recommend, suggest, (list not exhaustive) do not usually require much depth in candidates' responses. Therefore, the mark allocation for each statement/answer appears at the end.
- 11.2 Define, describe, explain, discuss, elaborate, distinguish, differentiate, justify, devise, analyse, evaluate, critically evaluate (list not exhaustive) require a greater depth of understanding, application and reasoning. Therefore, the marks must be allocated more objectively to ensure that assessing is conducted according to established norms so that uniformity, consistency and fairness are achieved.
12. Mark only the FIRST answer where candidates offer more than one answer for SECTION B questions that require only one answer.
13. **SECTION B**

- 13.1 If, for example, FIVE facts are required, mark the candidate's FIRST FIVE responses and ignore the rest of the responses. Indicate by drawing a line across the unmarked portion or use the word 'Cancel'.

NOTE: This only applies to questions where the number of facts is specified.

- 13.2 If two facts are written in one sentence, award the candidate FULL credit. Point 13.1 above still applies.
- 13.3 If candidates are required to provide their own examples/views, brainstorm this to finalise alternative answers.
- 13.4 **USE OF THE COGNITIVE VERB AND ALLOCATION OF MARKS:**

If the number of facts is specified questions that require candidates to 'explain/discuss/ describe' will be marked as follows:

- Fact 2 marks (or as indicated in the marking guideline)
- Explanation 1 mark

The 'fact' and 'explanation' are given separately in the marking guideline to facilitate mark allocation.

If the number of facts required is not specified, the allocation of marks must be informed by the nature of the question and the maximum marks allocated in the marking guideline.

- 13.5 **ONE mark will be awarded for answers that are easy to recall, requires one-word answers, or is quoted directly from scenario/case study. This applies to SECTIONS B and C in particular (where applicable).**

- 14.8 If the candidate identifies/interprets the question **INCORRECTLY**, then he/she may still obtain marks for layout.
- 14.9 If a different approach is used by candidates, ensure that the answers are assessed according to the mark allocation/subheadings as indicated in the marking guideline.

- 14.10 Award TWO marks for complete sentences. Award ONE mark for phrases, incomplete sentences and vague answers.

This will be informed by the nature and context of the question, as well as the cognitive verb used.
